

KIDS QUEST LAS VEGAS, NEVADA

With 22 locations and a 35+ year track record, Kids Quest has emerged as one of the largest and most successful hourly child care providers in the country. After testing two locations, Lightspace Play systems have been added to more locations.

“Lightspace Play is definitely helping drive additional and repeat business to our locations. Sales are up, attendance is up,” says Laura Roehl, Marketing Manager at Kids Quest. In the first four months of installation, one location saw over 29,000 plays on their Lightspace Play system.

“Lightspace Play is one of our top attractions,” Roehl added. “(It) will help make Kids Quest an industry leader by providing us with the latest and greatest interactive entertainment for children,” Roehl said.
